Hello everyone. My name is Mrs Dickson and I will be your teacher next year. I am really excited to meet you and to get to know you. We will have lots of fun learning new things. Enjoy looking at these photos and see all the fun things we will be doing when you come to school.

We love to look at books in our cosy book area.

We spend lots of time playing with our friends and exploring our fantastic environment.

Exploring Number

Some times we do maths with a adult and sometimes we have lots of fun using maths resources independently.

Showing our creative side

There are lots of opportunities to be creative. We like to think of our own ideas.

We follow our own interests and set simple goals for ourselves.

We have lots of fun drawing and writing

We explore how things change and why things happen. We plant our own seeds and watch them grow.

We enjoy visits from people who help us in the community.

We have so much fun in Reception and we can't wait for you to join us!

Comments from parents

- "As a parent I have always felt well informed and involved in my child's learning journey."
- "I feel really comfortable talking to the staff if I have any concerns."
- "I have been really pleased with his progress."
- "I still can't believe how much my child has learnt in such a short space of time. Her reading and writing is amazing and I feel this is down to all the amazing teaching she has received."
- "Thank you for making her first year at school an amazing one."
